# Under-Developed Nations U Fire as COVID-19 Spreads

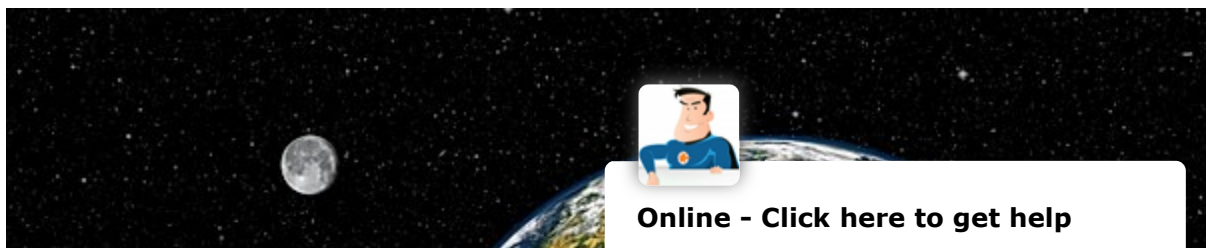

Updated: 2 days ago

4/25/2020 Chicago

We can't afford to play a Cat and Mouse game with a deadly virus.

As of Apr 20, 2020, the total number of confirmed COVID-19 cases in the Un stands at 770,564 with over 41,000 deaths. That's approximately 5.3% risk of patients in the world's most developed country.
